<b>Optional:</b> Scientific Calculator (under \$20.00) for Common Core Math 6 & 7	1

**Parents:** Throughout the year, your child's teacher(s) will identify **items for donation** that will be appreciated. One such item is boxes of tissues for classroom use. If you would like to donate these, please send them in with your child. Thank you.

**\*\*Pre-Algebra and above:** The TI-84 Plus Silver Edition Graphing Calculator will be used regularly in your child's class. Graphing calculators are an important technology used in Howard County mathematics courses beginning with Pre-Algebra and extending through the end of the mathematics course sequence. Although students will be provided with a graphing calculator for use in school and have the ability to borrow one for out of school use, students are best served by having a personal calculator and becoming very familiar with how it is used to address a number of different types of mathematic problems. Students who go on to take mathematics courses in college will often be able to use the same calculator for college course work.
